

sticker options at stickma.de

If you like to order a bigger charge of stickers then the standard print run of your chosen material:
Economy = 1500 pieces,
Paper = 1000 pieces,
Resistent + Transparent = 500 pieces,
simply select your desired print run of stickers from the fold-out menu.

Bigger amount

-- Please Select --

[What's that?](#)

Perforation *

- ☐ no perforation, rectangular cut
- ☐ regular perforation +€ 30.00
- ☐ irregular perforation +€ 60.00

[What's that?](#)

If you wish your stickers to be cut in the chosen format, so select "no perforation, rectangular cut". But if you prefer a special size or perforation, you have to activate the appropriate selection:
regular perforation = circles, rounded corners, quadrates or other quadrangles
regular perforation = freeforms
Please generate your cutting line on a separate layer and name it cutting DIE.

Checking your data *

- ☐ no check of your printing data
- ☐ arrange data check +€ 11.90

[What's that?](#)

Data check means that we check your printing data in terms of color mode, resolution, font problems and cutting.

Backprint

- ☐ free backprint (pack front- and backside in ZIP or RAR format)

[What's that?](#)

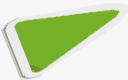

Backside-printing is possible in 1c black (grayscale) and free for the materials PAPER and RESISTENT (start with 1000 pieces). Please pack frontside **and** backside of your motive in ZIP or RAR format.

Upload your motive - alternativ per Email: sticker@stickma.de

Here you can upload your printing data.

Allowed file extensions to upload: **jpg,jpeg,png,psd,tif,tiff,eps,pdf,ai,svg,tar,zip,rar,gzip**

Production time *

- ☐ Standard (7-10 days)
- ☐ Preferred (5-7 days) +€ 10.00
- ☐ Express (3-4 days) +€ 20.00

[What's that?](#)

The production time has impacts on the final price:

Express: 3-4 days - additional charge 20€,
Preferred: 5-7 days - additional charge 10€,
Standard: 7-10 days - no extra charge .
